

# Agriculture+STEM

**Project-Based Learning at its Best!**

Lesson Plans Based on Your Curriculum!

**Use Agriculture as a teaching tool to focus on:  
Science, Technology, Engineering & Math**

- In-Service training for teachers
- Can be used for professional development points
- Customized activities for each event
- Perfect for school districts, ag days & water festivals
- Cost is \$500 with a minimum of 7 teachers
- First 10 schools to register receive sponsorship by Cargill Meat Solutions, Wichita & Kansas Department of Agriculture

**Kansas Foundation  
for Agriculture  
in the Classroom**
